EDUCATION

Bachelor of Technology
Parul University, Vadodara, Gujarat Duration: 2022 - 2026

High School
Aryam Education Acedamy, Surat, Gujarat Duration: 2021 – 2022

SUMMARY

Aspiring Full-Stack Developer with a passion for building impactful digital solutions. Skilled in Android, iOS, and web development, I focus on creating efficient, user-friendly applications that deliver seamless user experiences. Eager to embrace emerging technologies, collaborate with forward-thinking teams, and contribute to real-world projects that make a difference.

PROJECTS

[PU Event](#) (Dec 2023 - May 2024)
Introducing our college event management Android app- your one-stop solution to effortlessly join and stay updated on all campus activities! With our user-friendly interface, students can seamlessly register for sponsored events organized by various college cells. Say goodbye to the hassle of missing out on exciting opportunities!

[BhaktiSagar](#) (May 2024 – July 2024)
Bhakti Sagar is a simple and easy-to-use Android app designed for followers of Hinduism. This app offers a collection of Aartis, Bhajans, and other devotional texts, allowing users to read and reflect on their spiritual practices anytime, anywhere. With a clean, static interface, Bhakti Sagar provides a seamless experience for users looking to access religious content, making it a perfect companion for daily prayers and rituals.

[KhetiBazar](#) (Sep 2024 – Nov 2024)
Kheti Bazaar is a smart marketplace that helps farmers sell their produce directly to buyers, eliminating middlemen and increasing profits. The app ensures fair pricing, secure payments, and easy connections with wholesalers, retailers, and consumers. Simple, transparent, and farmerfriendly!

[FOODFORALL](#) (Feb – 2025)
FoodForAll is making food donation effortless and impactful!. Our platform connects donors with NGOs and those in need, ensuring that surplus food reaches the right people at the right time. With real-time tracking, instant NGO requests, location-based matching, and seamless navigation powered by maps, donating has never been easier. We've also integrated Razorpay API for secure and hasslefree transactions. Our mission is simple — reduce food waste and help those in need, one meal at a time

[CODE HOSTEL](#) *(Apil 2025 – May 2025)*

Developed and deployed a fully responsive, multi-page hotel booking website showcasing amenities, room details, gallery, testimonials, and contact information. Integrated Firebase for backend services such as form handling and data storage. Focused on user-friendly UI/UX design and cross-device compatibility. Live-hosted the website using GitHub Pages and configured a custom domain through GoDaddy.

Development Tools: Android Studio ,Xcode, Figma, Git
Backend & Integration: RESTful API Integration, Firebase/SQL Databases
Foundation: OOP, DSA(Basics),
Soft-Skill: Leadership, Communication, Time Management

Certifications & Assessments

- **Web Designing** *– Issued by Parul University*
- **Mobile App Development using Android Programming** *– Issued by Parul University*
- **iOS Application Development using SWIFT** *– Issued by Parul University*
- **PUCODEHACKATHON2.0** *– Participated in PU CODE HACKATHON 2.0, showcasing problem solving skills and teamwork in developing innovative software solutions within a competitive environment*
- **TECHEXPO 2025** *– Achieved 3rd place, collaborating with team to develop creative software solutions under tight deadlines, strengthening problem-solving skills, teamwork, and ability to think under pressure*
- **Certified Apple Teacher**
- **Al tools and ChatGPT workshop-** *Prompt engineering generative AI tools AI content creation AI-based presentation design visual brainstorming with AI.AI automation and productivity conversational AI interaction AI-powered research and note-taking*

Learned to effectively use AI tools like ChatGPT, Grok, Gamma, Napkin AI, Genesis, Julius, and GenSpark for content generation,automation, brainstorming, and productivity enhancement.

Internship Experience

[Ui/UX Designer](#) *(April 2025 – May 2025)*

As a UI/UX Designer at Fuleflux, I design user-friendly interfaces for web and mobile applications. I work with developers and product teams to turn ideas into clean, functional designs using wireframes, prototypes, and high-fidelity mockups. I focus on improving user experience through feedback, testing, and consistent design practices.
